

Poll Everywhere Participant Guide

Registration

Step 1: You should receive a registration link from your instructor. Click the link you were sent, or copy and paste it into your web browser.

Step 2: Enter your registration and billing information for a one-time \$14 charge and click the register button at the bottom.

Helpful tip: This is a one-time payment for a full year of unlimited use. If you have paid for this in another class this semester, or if you paid for a subscription within the last year, you will not need to pay again.

The screenshot shows the 'Participant Registration' page for 'Fun Pollster'. At the top, there is a navigation bar with the Poll Everywhere logo and links for 'How it works', 'Pricing', 'Support', 'Enterprise', 'Log in', and a 'Sign up' button. The main heading is 'Participant Registration' with the sub-heading 'Fun Pollster'. Below this, there is a form with the following fields: 'First name', 'Last name', 'Email', and 'Password'. To the right of the form, there is a blue box titled '\$14 for one year to respond to polls' which lists benefits: 'Instructors may grade your responses for credit', 'Less expensive than clickers and less of a hassle', 'Confirm that your responses are received by viewing your response history online', and 'One paid registration works with multiple instructors for an entire year'. Below the form, there is a section for payment information, including a 'Card Number' field and a question 'How will you be paying today?'. To the right of the payment section, there is another blue box titled 'Why should I register as a participant?' which explains the benefits of registering as a participant and addresses the question 'I responded before I paid, will my responses still be counted?'.

Step 3: If you plan to respond via text messaging, you will need to register your mobile phone number. Select Registration under Settings. Click Details to the right of your registered course and enter your phone number there. Do NOT change the "Custom Report ID" field. To certify your mobile phone number, text the word CERTIFY to the number indicated on the instruction page. You will need to send this text from the mobile phone you will be using to respond.

Responding in class

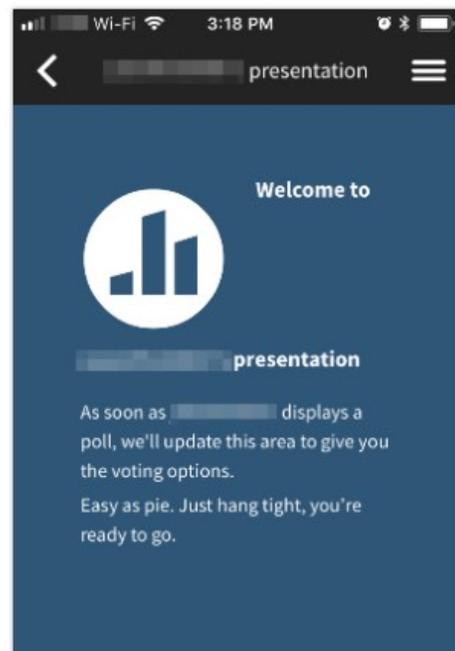

Via the app (recommended)

To respond to an activity, you need to join an active presentation. Open the mobile app on your device, enter the presenter's username (EMILYHOPKINS051) and tap the **Join** button. You can now respond to the currently active question or survey.

Helpful tip: *The last three sessions you've joined using your mobile device will appear below the join bar. You can quickly join sessions by those presenters by tapping their username in the list.*

If the presenter hasn't activated the question or survey yet, you'll see a screen letting you know you're ready to go, and the screen will update automatically once the poll is activated.

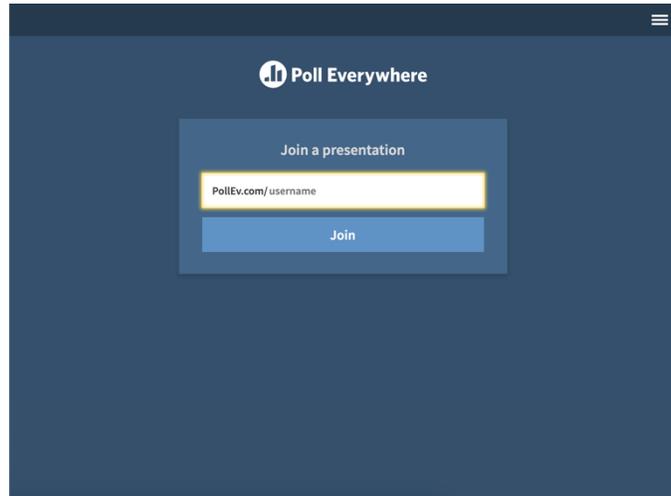

Poll Everywhere Participant Guide

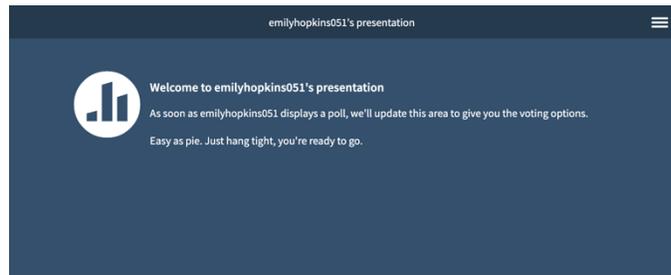

Via the web

Go to pollev.com. You will be prompted to enter the presenter's username ([EMILYHOPKINS051](#)). This will also be displayed in the on-screen activity.

Once you click "Join", you may be prompted to log-in to your account. Once you are logged in, you will be able to respond to the poll.

If the presenter hasn't activated the question or survey yet, you'll see a screen letting you know you're ready to go, and the screen will update automatically once the poll is activated.

Poll Everywhere Participant Guide

Via text

At the start of class, you will need to join the presenter's session by texting the username ([EMILYHOPKINS051](#)) to [37607](#). You should receive a confirmation message that you have joined the session.

You may then respond to active polls by texting your response (for open-ended questions) or the letter of your answer choice (for multiple choice questions). You do not need to join again before each subsequent activity.

At the end of class, text LEAVE to exit the session.
